

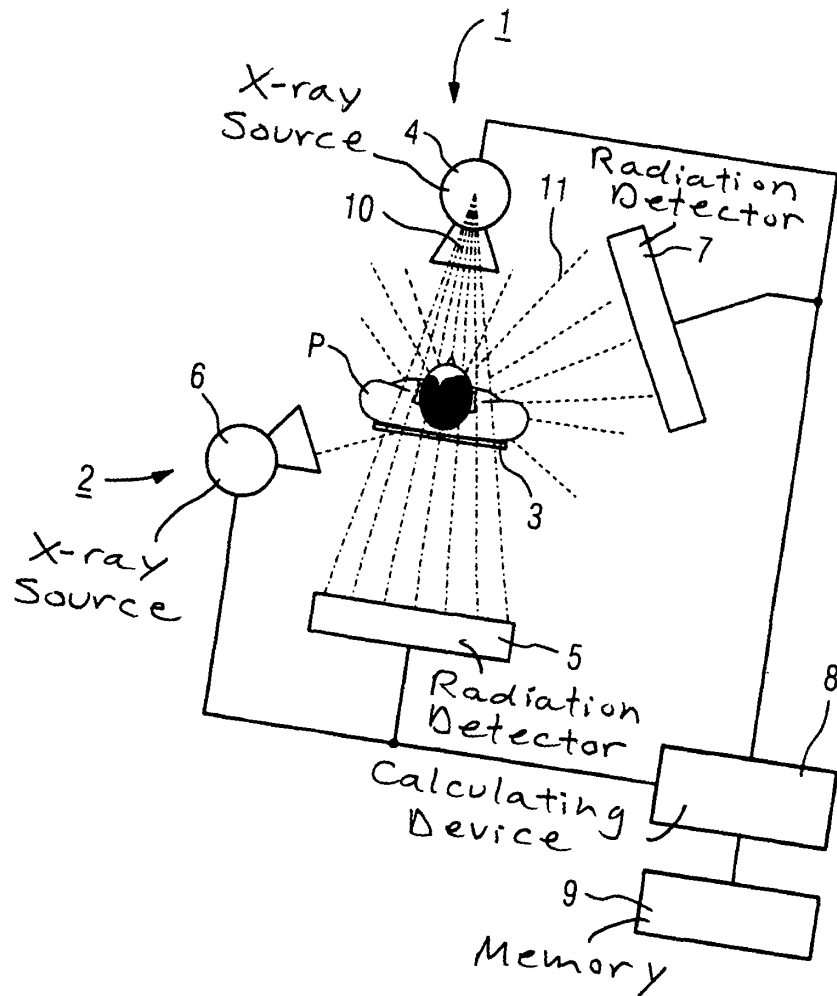

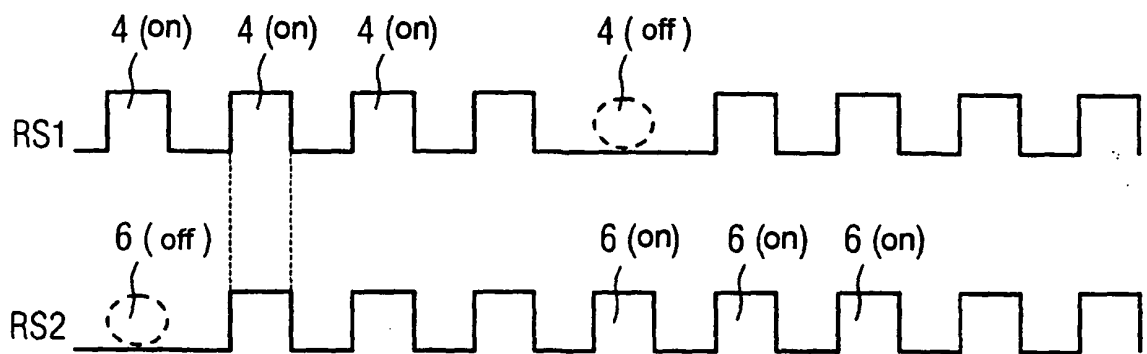

FIG 1

The diagram shows two digital signals, RS1 and RS2, over time. RS1 has four pulses labeled '4 (on)' and one dashed circle labeled '4 (off)'. RS2 has one dashed circle labeled '6 (off)' and three pulses labeled '6 (on)'. The pulses for RS1 and RS2 are staggered in time.

The diagram shows two digital signals, RS1 and RS2, over time. RS1 has four pulses labeled '4 (on)' and one dashed circle labeled '4 (off)'. RS2 has one dashed circle labeled '6 (off)' and four pulses labeled '6 (on)'. Vertical dashed lines connect the first '4 (on)' pulse to the first '6 (on)' pulse, and the second '4 (on)' pulse to the second '6 (on)' pulse.
